Jackson Cole and Evolve: everything a scheduling assistant needs

Handoff from the Evolve OS build chat, 12 October 2026, read from the live board, the live calendars and the live scheduled tasks that morning. Facts are marked with where they came from. Anything marked a guess or a suggestion is not a fact. Anything not here is not known.

0. How to use this

You are building a weekly schedule Jackson can live by. This document is context, not instructions to change anything. The live board is https://claude.ai/artifact/KmwskLGeZxU6vG284njSfR and its database can be read with the ArtifactData tool. Read it fresh before relying on anything dated here, because six scheduled tasks rewrite parts of it every day.

1. Who and what

Jackson	R. Jackson Cole, founder of Evolve Entertainment Studios, a full agency in Auburn, Alabama: video, photography, web and design. Time zone America/Chicago. Phone (334) 414-3215, prefers text, misses calls. Office 516 E Glenn Ave, Suite 136, Auburn, AL 36830.
Gavin Fox	Shooter and second pair of hands. Works Monday, Tuesday and Thursday only (board crew record and every scheduled task agree).
Grace	Copy and studio days. On site Monday and Wednesday 2:00 to 5:00, Tuesday and Thursday 10:00 to 2:00, Friday 1:00 to 4:00. About 17 hours a week. Her list was cut to 14 priority tasks on 21 Sep.
Logicnova	Web developer in Mumbai (Rohan, rohan@logicnova.in, and Mahesh, mahesh@logicnova.in). India is 10 hours 30 minutes ahead of Central now, 11 hours 30 after the US clocks change on Sun 1 Nov. Work handed over by early evening Central lands at the start of their day. Agreement of 6 Oct: 30% within 7 days of accepting a work order of $1,000 or more, 14 days for Evolve to review a delivery, balance within 30 days of their invoice.
Mom (Shawn Cole)	Runs Hill Hill Carter, a law firm. Evolve does paid legal document work for it, plus an unbilled poster as a favor. Also part of Threads of Change.

2. Jackson's standing rules for any assistant

• Do not create, move or delete a calendar event without telling him first. Never send an email or a message on his behalf: drafts only. Never write to ClickUp (it holds sample data and signs in as Gavin).

• Never invent a fact, a date, a price or a status. Undecided stays undecided and comes back to him. Label a suggestion as a suggestion.

• Never make him feel behind. Nothing is overdue, things are carried.

• Plain everyday language. Short. No jargon. No em dashes or en dashes, ever.

• One question at a time, multiple choice, each option with a one line description of what it does. Never stack questions. Note: option previews do not show on his screen, so put everything he needs in the option text or a PDF.

• Fix what you can fix directly. Only bring him what genuinely needs him.

• He cannot open .md files. Give him PDF or DOCX.

• Outbound wording he sends: open with Good morning, Good afternoon or Good evening, never Hi. On a first contact, My name is Jackson Cole comes first. Short.

• Every event he hosts gets a planning meeting about six weeks ahead, on the same calendar as the event. Big events get two: concept at six weeks, logistics at two weeks (Sunday planning task rule).

• Blocks over 90 minutes on a business calendar are flagged by his audits. Anything needing Gavin off Mon, Tue, Thu, or Grace outside her windows, is flagged.

3. The calendars

Calendar	Counts as	What lives there
EVOLVE	work	Client and growth blocks: Claude Academy, Evolve website build blocks, Threads of Change, one off client meetings and planning blocks.
WORK WEEK FLOW	work, routine	The standing week: Sales block, Ops Sync, Evolve Session, Invoicing / AR, Weekly Wrap, Feed the week, Check the plan. Calendar id c_e52569f797ffdb1bdeb01bc77d2ba8149ffe85d2d1ae63a0203a0019b45fb52e@group.calendar.google.com.
ASSISTANT HOURS	work, presence only	Grace's on site windows. Presence, not commitments: never count as overlaps.
FALL	personal	The fall season plans.
PERSONAL, HEALTH	personal	Personal and health appointments.
WAKE & SLEEP	personal, presence only	Sleep and wake windows. Ignore for overlaps.

4. The standing week, as it is on the calendar now

Read from Google Calendar for Mon 12 to Sun 18 Oct and Mon 19 to Fri 23 Oct. These repeat weekly.

Day	Time (Central)	Block	Calendar, and what the block's own description says
Mon to Fri	9:30 to 10:15	Sales block · 45 min	WORK WEEK FLOW. Anchor, daily minimum: outreach, follow ups, proposals, the one money item named at 9:00. May slide later when a surprise hits, never skipped two days running. The Night Lead Engine retitles it with the calls ready. Series id glephrippil1u84baqki6mfvjo.
Mon	2:00 to 2:45	TEAM · Weekly Ops Sync · Jackson, Gavin, Grace	WORK WEEK FLOW. Win and learn, project health, pipeline, decisions, close with 3 owned actions and due dates. Every item leaves with an owner.
Mon	3:00 to 4:00	Claude Academy · learn something new (1 of 3)	EVOLVE. Three and a half hours a week, Mon, Thu, Fri.
Tue	2:00 to 3:00	Evolve website · build block (1 of 3)	EVOLVE. Three hours a week on evolveentertain.com.
Tue	4:00 to 5:00	Threads of Change (1 of 2)	EVOLVE.
Wed	2:00 to 3:00	TEAM · Evolve Session (learning seminar)	WORK WEEK FLOW. 40 min teach, 15 min apply, 5 min takeaway. Four week rotation: AI for production, cinematography, business and positioning, post and systems.

Day	Time (Central)	Block	Calendar, and what the block's own description says
Wed	3:00 to 5:00	Threads of Change · long block (2 of 2)	EVOLVE.
Thu	2:00 to 2:30	Invoicing / AR	WORK WEEK FLOW. Cross check Stripe, chase outstanding, send progress invoices.
Thu	3:00 to 4:00	Evolve website · build block (2 of 3)	EVOLVE. Its description says it sits clear of the 10:15 to 1:00 client deep work.
Thu	8:30 to 10:00 PM	Claude Academy (2 of 3, the long one)	EVOLVE.
Fri	1:00 to 2:00	Claude Academy (3 of 3)	EVOLVE.
Fri	3:00 to 4:00	Evolve website · build block (3 of 3)	EVOLVE.
Fri	4:30 to 4:45	TEAM · Weekly Wrap	WORK WEEK FLOW. What shipped, what slipped, what rolls forward. Feeds Sunday planning.
Sun	7:00 to 7:30 PM	Feed the week · 30 min	WORK WEEK FLOW. Confirm or change each line of the Sunday prep. Rule: whoever is waiting on him soonest goes first. Backend work only if no client date inside 3 days.

Also seen on WORK WEEK FLOW in the week of 5 Oct: Check the plan · 5 min. Not seen in the week of 12 Oct.

The board's own note on how the week is split (context/core weekShape, written by a task): split by project, not by day. Laurel Oaks owns Mon, Wed and Fri. CR Photography owns Tue and Thu. Growth and learning blocks were pulled for one week only and come back the next. Treat this as last known, not fixed.

One off on EVOLVE this week: Mon 12 Oct 10:15 to 11:45, PLAN · College commercial outreach, marked by Jackson as a placeholder date. Its description lists what the plan must answer: the buyer, what is sold, the price, the one page leave behind, and the weekly send target.

5. This week's one thing per day (board, mustdo)

Date	The one thing	The 20 minute version
2026-10-12	Lock the Laurel Oaks shoot window with Gavin and the four trainers	Write Oct 13, 14 and 15 on paper as the window
2026-10-13	Decide if Tuesday is the first Laurel Oaks shoot day or stays a build day	Write yes or no on paper, shoot or build, before tonight
2026-10-14	Give Josh a specific time and the color grading number for Threads of Change	Write down the one time and the number on paper before you text him
2026-10-15	Check the CR Photography invoice, the seven business days from Oct 6 run out today	Open the invoice thread and write the payment status in one line
2026-10-16	Run the Boos and Brews logistics kickoff with the property manager	Write the three must-get answers on paper first: guest cap, noise cutoff, parking

6. Live projects (20)

From the board's projects records, written by the Morning project state task on 11 Oct. From 12 Oct that task also writes a stage word, the owner of the next move and plain dates. WEC documentary is finished and archived and

is not listed.

Project	Next action	Next date, as written	Held up by
Bill Abell law firm	Send Cheryl Bullard two lines in tomorrow's 9:30 sales block. Ask for one old closed case so the free comparison summary can start, then ask whether Mr. Abell has had a chance to look at the proposal.	2026-10-12, Monday, in the 9:30 sales block.	Mr. Abell on signing, thirteen days since his office printed it. The chase itself is on him and has sat ten days.
BOOS and BREWS	Fix the date on the event site from Oct 31 to Oct 30. It is one line of text, a friend has already read the wrong date off it, and invites go out on Oct 19.	2026-10-16 at 5:00 is the kickoff with Gavin and the property manager, and it is a Friday while Gavin works Mon, Tue and Thu. Oct 19 at 5:00 is guest list and invites. Oct 30 is the party, nineteen days out.	Christie, on the co host answer and the prize money, three days. The site date, the Twilio top up and the set piece list are all on him.
College and Greek outreach	Text Grace tonight for her universities and sororities list. The block is tomorrow at 10:15 and she is not on site until 2:00, which is after it, so the list has to be asked for before the morning.	2026-10-12, 10:15 to 11:45, and the block itself still says the date is a placeholder.	Him. The Oct 12 date is a placeholder he set himself and it moves when he plans that week.
Community service hours	Call Auburn Public Works tomorrow morning and ask two things, how many sessions are left and what one session counts as. Ask about the court fines balance on the same call. Write the two questions down before dialling.	unknown. No session is on any calendar and Public Works has never given the days they take people.	Auburn Public Works, quiet since Sep 1, forty days, on which days they take people and how long a session is.
Evolve compliance and tax	Open the resident portal, read the rent amount there rather than from a texted link, and pay it. A fourth notice came in yesterday morning and the amount is still not written down anywhere.	2026-10-12, Monday, is the 51 dollar WOW fiber bill. 2026-11-15 is the final Vue renewal deadline. The CPA has no date because nobody has named one.	Him, and a missing name. The rent is one login. Everything on the filing side queues behind one meeting that cannot be booked until there is somebody to book it with.
CR Photography (Charlie Roberts)	Write down in three lines what the two meetings settled: the shoot window, the photos he wants to sell, and the price points. If the window is still not settled, pick one around the Laurel Oaks shoot dates and send it to Charlie.	around 2026-10-15, when the seven business days on the Oct 6 invoice run out.	Him, on writing down what the two meetings produced. Nothing is open on Charlie's side except the invoice.
Design student hire	Write one two line reply asking for a portfolio link and weekly availability, and send it to both ava0020@auburn.edu and ogm0020@auburn.edu. Same message twice, two minutes.	unknown, nobody set one. Mindy Walden's posting is live, so more applicants will keep arriving.	Him, on one reply that works for both applicants. Four days.
Evolve OS build with Jacob	Send Jacob Gafnea one line setting the next conversation, and write two lines on this board saying what the Evolve OS is and what his role on it is.	unknown, nothing is on the calendar with Jacob.	Nobody outside. This is unrecorded rather than stuck.

Project	Next action	Next date, as written	Held up by
Evolve website	Open the DigitalOcean account and deactivate the droplet. It is the one piece of this still costing money and support has said plainly that nothing stops until somebody does it from inside the account.	2026-10-13 at 2:00 is the next build block, and that day may become the first day of the Laurel Oaks shoot instead.	Nobody outside. The droplet and the three remaining tasks are all his own.
Fall dinner party with Chef Chris Michals	Open the Dinner Party Estimate and Menu email, read the number in the attached Event Quote Autumn Supper document, and send Chef Chris Michals one line saying yes, no, or when he will know.	2026-10-22 is the dinner, eleven days out. No date is set for answering the quote, which is why it needs one today.	Him, on opening the attachment and answering. Three days on the quote, five days on the 3:00 meeting question from Oct 6.
FUSE THE DENIM	Email Ayesha two specific times for the brand film call and name them rather than asking when suits her. Two sentences, and put one line underneath saying the stylist call went ahead so she knows the introduction landed.	unknown, nobody has set one. The brand film has never had a date on any calendar.	Him, on giving Ayesha two times. Luke is settled.
Game weekend apartment rental	Re list Nov 6 and Nov 7 at 350 a night. Those nights have been free since Sep 23, that is 700 dollars, and it is the fastest cash on the board. Then match the Kathleen Morris 350 to a weekend and write the dates down.	2026-10-21 at 3:00, the cleaning coordination with Krissy before the LSU weekend check in on Oct 23. The Arkansas weekend is paid but its dates are not recorded anywhere.	Him, on answering enquiries and writing one date down.
GV70 car purchase	Reply to Ken Stommel's Sep 19 email naming which of his three numbers, and answer the question he asked back, whether the car has been bought and when delivery is expected. If the financing is not settled, say that plainly and ask him to hold a slot rather than letting it go quiet.	2026-10-14 is the point the car lane set for deciding whether the Oct 17 Montgomery day carries anything on this. Ken's booking window is open now.	Him. Ken has been waiting twenty two days on a direct question. The purchase side is with ServisFirst and nothing in email says what was asked.
Hill Hill Carter legal document work	Send his mom one short email in tomorrow's 9:30 sales block with the money question in it. Ask how Coleman, Thornton, Noriega and Escalona should bill, per matter, per hour or monthly, and ask whether HHC-2609-01 for 202.50 ever went through. Add the CPA name and the three poster questions at the bottom.	2026-10-12, Monday, in the 9:30 sales block. There is no deadline on it, which is exactly why it keeps not happening.	Him, on one email about money. Nothing on the firm side is waiting on him. They owe the two unreadable Coleman pages at eleven days and the Kirchner pages. The 202.50 invoice is on their accounts side at thirty one days.
HHC mediation impact poster	Add the three format questions and the Marquisha photo permission to the email going to his mom tomorrow about billing. Four lines at the bottom of a message already going out. They have waited twenty days and cost nothing to ask.	2026-10-12, Monday, inside the Hill Hill Carter billing email. No poster block is on any calendar.	His mom, on the format and photo questions, and nothing shows she was ever asked. Twenty days.

Project	Next action	Next date, as written	Held up by
Harold Lloyd Entertainment website	Draft the Harold Lloyd deposit invoice off the number already inside HaroldLloyd_WebsiteShop_QT_26-09-29_FINAL.pdf, then send Sue two sentences asking whether she has had a chance to look at the recap and the quote.	2026-10-12, Monday, in the 9:30 sales block.	Her, on reading the recap and the quote, nine days. The deposit invoice is the part on him and it needs nothing from her.
Inline Lighting	Send Lauren Collins at lcollins@inlineelectric.com a three sentence follow up with two specific times in it. Name the times, do not ask when suits her.	2026-10-12, Monday, in the 9:30 sales block.	Him. Nothing has gone to her since Sep 21, so this is not her silence.
Laurel Oaks Veterinary Center	Text Gavin tonight for the dog budget number. Then write Oct 13, 14 and 15 on paper as the shoot window, so tomorrow's 9:30 block is sending it to Jennifer and all four trainers rather than still deciding it.	2026-10-12, Monday, is the 9:30 sales block and Dawn Wolfe's last offered afternoon. Oct 13 to 15 is the shoot window and it starts Tuesday.	Him, on one number and one window. Jennifer sixteen days, the four trainers three days, the 334 324 9471 number seven days.
Threads of Change	Text Josh on 703 403 9972 one specific time and put the colour grading number in the same message. He has asked three times and the number was promised twenty one days ago.	2026-10-13 at 4:00 is the next long block, and that day may become the first day of the Laurel Oaks shoot instead.	Him, on the two things his mom asked for on Sep 27, a project manager and a plan. Fourteen days. Josh is also still waiting on a time and a number.
Webb build with Logicnova	Open the draft from Wednesday morning, countersign the signed October 6 agreement and send it to rohan@logicnova.in and mahesh@logicnova.in. Add one line asking whether Mahesh also needs to sign.	2026-10-12, Monday morning, which is inside their working day.	Him, on countersigning and sending a draft that is already written. Four days. Nothing is open on their side.

Groups (suggested names in Jackson's projects PDF of 10 Oct, not yet ruled on): client work is Laurel Oaks, CR Photography, Harold Lloyd Entertainment, Webb build, Hill Hill Carter legal work, Threads of Change. Sales not yet won: Bill Abell, Inline Lighting, FUSE THE DENIM, BOOS and BREWS, College outreach. Evolve itself: website, compliance and tax, design student hire, Evolve OS. Personal: community service, GV70 car, game weekend rental, fall dinner party, HHC poster for Mom.

7. People he is waiting on (open)

Who	What	Since	What it holds up
Gavin	Enter the overhead costs on Money, business and personal, the ones he mapped	2026-10-12	
Cheryl Bullard / Mr. Abell, Abell & Associates	Signed Services Agreement (page 3 signed, page 4 initialed) for the medical record summaries deal, plus one old closed case sent over for the free comparison summary	2026-09-25	The free trial comparison case and the discounted rate arrangement with Abell & Associates
Mumbai developer	A confirmed call time. IST is 10 hours 30 minutes ahead of Central.	2026-09-20	The Webb roadmap, and nothing on that build can start

Who	What	Since	What it holds up
Auburn Public Works	The days they take people and how long a session is. The street address is already known: 4277 Wire Road, Suite 300, Auburn, AL 36832	2026-09-01	The community service morning cannot be booked at all

8. The carried list (board, context/core)

Written by the Friday board audit and the money watch. These are things that did not land and are still open. Read them as carried, never as late.

• Community service session: waiting on Auburn Public Works for which days they take people and how long a session runs. The street address is already on file (4277 Wire Road, Suite 300, Auburn), so that is not the holdup. Open since Sep 1 with no word back.

• Court fines, remaining balance, open since Aug 29. A Sep 7 note says paid in full but the board still shows a balance, and nothing in email or Drive settles it either way. A collection notice arrived Oct 6 from Brown and Joseph, with no amount confirmed since the attached document could not be opened.

• CR Photography platform and image rights, still undecided since Sep 7. Charlie replied Sep 23 saying he cannot afford it right now and needs to work out costs before he can choose.

• BOOS and BREWS set piece build and install dates, still unresolved. It was due to come out of the Tue Sep 22 session with Gavin, then set up again for a Mon Oct 5 sync with him. Nothing on record confirms dates got locked either time.

• HHC mediation poster for his mom. The Thu Sep 24 design block has come and gone. Still needs his call on real photos vs styled, and on print vs email vs handout, plus his mom's confirmation that Marquisha's family is fine with her photo being used.

• Laurel Oaks hero dog trainer bids. All three replied again Oct 8: Steve Berens offered a Goldendoodle as an alternative to an Aussie and asked for a budget before he bids, Nicole Kanoy sent three dog options, Greg at Dogworks wants a call, and Dawn at Pawsitively Famous asked for a call Friday or Monday afternoon. Still no trained dog chosen, so the shoot window is still not set.

• Mumbai developer roadmap call, still no confirmed time on record, open since Sep 20. The Webb roadmap cannot start until this is set.

• Christie (360 Management) co-host decision for BOOS and BREWS. She asked if Jackson was free Monday instead of the Thursday meeting that slipped past her. Monday has come and gone with nothing on the calendar confirming an answer went out. The poster and the marketing launch are both waiting on this answer.

• Jennifer (Laurel Oaks) commercial logistics call. She was told a time would come early last week. That window has passed with no call on the calendar, so she is still waiting on a time.

• Q3 CPA packet, due date Tue Sep 22 has passed. Still needs the four compliance items as inputs, and no CPA is booked yet.

• Q3 estimated taxes, due Sep 15, has passed and is still open.

• Business licensing for Auburn, Lee County and the state, due Sep 20, has passed and is still open.

• Lee County license and BPT-IN, open since Aug 25.

• File the 2025 Evolve taxes, open since Sep 4.

• Laurel Oaks prep for the Friday Weekly Wrap, due Fri Sep 25, that date has passed with nothing confirming it got finished.

• Mom's football tickets, four of them, due Sat Sep 26, that date has passed with no confirmation they were bought.

• Vue lease intent in writing, due Mon Sep 28, that date has passed. A block was on the calendar that morning to send it, but nothing confirms it went out.

• Vue rent payment, due Thu Oct 1 per a 360 Management reminder, that date has passed with no amount stated and no confirmation it was paid. Two more notices followed, Oct 5 and Oct 6, the second saying the payment still had not come in and late fees are now on the account.

• Bill Abell's signed services agreement for the medical record summaries deal, still not back since it went out Sep 25. Cheryl Bullard said Sep 28 she would get it printed for him while he is out of town.

• Saturday's lake house game time, still showing both the 2:30 and the 5 to 7 options. The Sep 27 date to lock it has passed without anything narrowed down.

• New Hampshire foliage shoot for CR Photography, booked for Oct 4 to 8. That window has now passed with nothing on record confirming how the trip went.

9. Dated items (board, context/core deadlines)

• Sun Oct 11, Pool and movie watch party, the last honest date before the pool goes cold

• Mon Oct 12, WOW fiber bill, $51 due

• Within 7 business days of Oct 6, CR Photography remaining 50% deposit invoice due, amount not stated in the email

10. Money, as far as anyone knows

Settled, on Jackson's word 12 Oct: the WEC invoices, $650 and $400, paid. The Harold Lloyd software money, $1,086, settled. Never report these as owed.

Invoices Evolve sent that may still be open (Gmail search 12 Oct, read only): CR Photography remaining 50% deposit, sent 6 Oct, payment asked within 7 business days, amount only in the PDF. Charlie Roberts first deposit, 24 Aug, amount only in the PDF, probably paid. Pi Kappa Alpha PKAU-2608-S, 29 Aug, amount only in the PDF. Auburn NVA final invoice, 29 Jun, approved and submitted for payment by Auburn. HHC-2609-01 for $202.50, sent 3 Sep, a $205 Venmo from Shawn Cole arrived the same day so it may be paid. Medical Leverage MDLV-2608-D and MDLV-2608-B, $750 each, approved, payment promised 21 Aug, no paid notice found. A Harold Lloyd deposit invoice is still to be drafted from the quote PDF.

The money watch's own summary (context/core money, as written by the task):

In: Bill Abell: the medical record summaries proposal and services agreement went out Sep 25. Cheryl Bullard said Sep 28 she would get it printed for Mr. Abell, who has been out of town, so it is still a quote waiting on his signature, nothing signed or paid back yet. Jennifer Nay has paid in full, nothing outstanding there. HHC work for his mom's firm: invoice HHC-2609-01 for $202.50 went out Sep 3, due Sep 10, still no payment confirmation showing in email. A $721.89 deposit hit his Bank of America account on Sep 22, per an Experian weekly alert, which does not say what it was for. Charlie Roberts at CR Photography: a new invoice went out Oct 6 for the remaining 50% deposit, asking for payment within 7 business days. No payment confirmation yet, and the email does not state the dollar amount, that is only in the attached PDF.

Out: Q3 estimated taxes, which were due Sep 15. Court fines, remaining balance, with court costs plus attorney fees around $1,000. An email arrived Oct 6 from Brown and Joseph, subject line Collection Notification, addressed to him directly. It has no text in the body, only an attached document that could not be opened, so no amount or other detail could be confirmed from it. A bank alert on Oct 7 also flagged one of his account balances, with no dollar amount given in the alert. WOW fiber bill, $51, due Oct 12. His Vue rent payment was due Oct 1, per a reminder from 360 Management through AppFolio, no amount stated in the email. Two more notices followed from 360 Management, Oct 5 and Oct 6, the second one saying the payment still had not come in and late fees are now on the account. His Evolve Checking account, ending 7039, went negative to -$118.30 after a $48 purchase plus a $10 overdraft fee on Sep 29, per a Bank of America alert. A second account, ending 9527, also showed a negative balance twice this week, per separate bank alerts on Oct 2 and Oct 6.

Not known: his costs (Gavin has been asked on the board to enter the overhead he mapped), cash on hand, the floor he wants to keep, and how often a reach out turns into a job. The money engine (below) waits on these.

11. Scheduled tasks that already run (all Central time)

When	Task	What it does, briefly
Daily 1:13 AM	Night Lead Engine	Re checks leads, builds the next 5 calls and, per lead, copy, a concept PDF and a pitch brief. Retitles the Sales block when calendar writes are on. Currently OFF, with one trial run by hand on 11 Oct evening.
Daily 5:15 AM	Read what Jackson texted back	Reads only his texts to himself. Closes days from numbers like 1 and 3 landed, names a one thing, logs who owes him. Needs his Mac awake.
Daily 5:30 AM	Morning project state	Rewrites every project's state and today's brief, clears the agents' message bus.
Daily 5:47 AM	Evolve OS morning refresh	Weather, quiet clients, and a money check that skips what is settled.
Daily 8:00 AM, 6:00 PM	Inbox sweep	Quotes, replies, new dates from Gmail. Drafts only. Updates the waiting list.
Daily 8:45 AM	Morning text sweep	iMessages needing him, with suggested replies in the report. Needs his Mac awake.
Daily 7:40 PM	Car goal agent	Owns everything about the GV70 car: shop replies, drafts, the quote tracker.
Daily 11:00 PM	Close the day nudge	Lists today's blocks with numbers so he can text which landed. It needs Automatically approve turned on in its settings, which only Jackson can do; without it the run stalls.
Mon 8:30 AM	Monday team brief	Builds the week's brief for the 2:00 Ops Sync: who owns what, decisions, dates. Writes teambrief on the board and a Gmail draft. The board shows it on People as This week, by person.
Thu 9:00 AM	Money watch	Reads three weeks of invoice and payment mail into context/core money.
Fri 5:00 PM	Friday board audit	How the week went from the done marks, rewrites the carried list.
Sun 8:00 AM	Sunday Walmart restock list	A list only, never the cart.
Sun 6:30 PM	Sunday planning pass	Names each weekday's one thing and its 20 minute version, audits the next two weeks, sends one message.
2 Mar, Jun, Sep, Dec, 9 AM	Change Waterdrop filter	One line reminder.

A scheduler you build should read what these write rather than repeat them, and should never write to the same fields they own: mustdo is owned by the Sunday planning pass and the 5:15 text reader; done by the board and the 5:15 reader; projects and brief by the 5:30 task; waiting by the sweeps; teambrief by Monday's task.

12. The board, in short

Home: today, the one thing, Needs You. Board: the calendar, Close the day. Projects: the 20, each with Overview, Work, Deliverables, Playbook, Money, People, Log. Pipeline: Calls (the lead engine's list with tap to call and outcome buttons) and leads. Money: invoices, costs, the plan and payment calendar. People: This week, by person (the Monday brief) and who owes him. Inbox: captured notes waiting to be sorted. Settings.

13. Sales and the lead engine

The offer it pitches, approved 8 Oct, rate card v26-07-10: Starter Site, $2,900. Three to five weeks. 50 percent to start, 50 percent on delivery. Two rounds of revisions. Growth Site, $5,500, when it is bigger.

Pool on 8 Oct: 85 leads pass every check, 26 need a phone number, 25 parked (mostly committee buyers), 130 still in the pool. Calls happen in the daily 9:30 Sales block. 5 calls a sheet. During the first 100 calls, owner operators who can pay only.

Prep per lead, overnight, on his word 12 Oct: research their site, write their homepage copy in their trade's voice from their own facts only, a watermarked concept PDF of the top of their homepage, and a one page pitch brief. He looks at the site, the concept and the brief before calling.

Still his: switch the engine on for nights, remove Spotify, ClickUp, Canva, higgsfield, Zoom and Tally from the engine's task, confirm the 33 committee flags, his weekly usage reset day.

14. How long a web build takes (suggestion, not confirmed)

Steps from the Money Engine plan. Times are suggested guesses that fit the rate card's three to five weeks. Jackson has not ruled on them and handed this question to you.

#	Step	Who	Suggested time
1	Kickoff call, work order to Logicnova	Jackson	1 day
2	Hosting and site set up, alongside step 3	Logicnova	3 days
3	Sitemap and page list, then the client's OK	Jackson, then client	1 day, then 2 days waiting
4	Homepage design, then the client's review	Jackson, then client	2 days, then 2 days waiting
5	Inner pages design and review, while Logicnova builds the homepage	Jackson, then client	2 days, then 2 days waiting
6	Build of the approved pages, while Jackson gathers copy and photos	Logicnova	4 days
7	Phone and browser checks, then fixes	Jackson, then Logicnova	1 day, then 2 days
8	Client's final look, launch, final invoice	Client, then Jackson	2 days waiting, then 1 day

About 22 working days, roughly four and a half weeks, with about 7 days of Jackson's own hands on time. A faster version with 1 day client waits is about 3 weeks. Hand offs to Logicnova belong in his afternoon so they are worked on overnight.

15. The money engine (built, not on the board yet)

A tested calculation, 20 of 20 tests passing, kept in the repo as engine/me.js. It plays the bank balance forward day by day for 13 weeks from cash on hand, money coming in (sent invoices, agreed deposits, steady income) and money going out (costs, Logicnova, bills), finds the first day under his floor, and works backward to how many jobs he must sign by when, when to start reaching out, and how many reach outs a week that takes, and whether that fits his Sales block time. It needs his costs, cash on hand, floor, average job price and a guess at how often a reach out becomes a job.

16. Open questions that are his

• Whether to back up and delete 17 leftover duplicate project records (the board ignores them).

• Whether to use the suggested project names.

• Turn on Automatically approve on the Close the day nudge task.

• Switch the lead engine on for nights, after reading the trial run.

• His costs, cash on hand and floor, for the money plan.

• Who can open the board: right now anyone with the link sees personal money and personal projects.

• Whether the $5K by August 31 target is still real. The daily planner skill still enforces it and his business facts file marks it stale.

• The step times for a web build (section 14).

End of handoff. Built from the live board, calendars and task list on 12 Oct 2026. Ask the board for anything newer.
